Course

'Planning for Success'

Business Scenario PRINCE2® is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management in the UK and is practiced worldwide. PRINCE2® provides a common language for all participants in the project and encourages formal recognition of responsibilities within the project and focuses on what a project is to deliver, when and for whom.

Who will Benefit? This course is designed for experienced project managers (greater than one year) who wish to gain a formal industry recognised qualification.
