

### 'Planning for Success'

---

**Business Scenario** PRINCE2 is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management in the UK and is practiced worldwide. PRINCE2 provides a common language for all participants in the project and encourages formal recognition of responsibilities within the project and focuses on what a project is to deliver, when and for whom.
