

'Planning for Success'

Business Scenario PRINCE2® is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management in the UK and is practiced worldwide. PRINCE2® provides a common language for all participants in the project and encourages formal recognition of responsibilities within the project and focuses on what a project is to deliver, when and for whom.

Who will Benefit? This course is designed for delegates who are already PRINCE2 Registered Practitioners and who wish to keep their registered status up-to-date.
